13 January 1969

MEMORANDUM FOR: Chief, Information Processing Staff, OPPB
Information Processing Coordinators

SUBJECT : Approval of "Category A" Computer
Processing Requests

1. Attached is the draft of a bit of red tape which I am contemplating sending to each directorate, because:

- o in general, special "privileges" demand special procedures,
- o the system is in constant danger of corruption,
- o with the scheduling bind we are in, currently, there is great temptation for people to use Category A to beat the system.

2. Reaction?

151

CHARLES A. BRIGGS
